£100 Sponsor a Mastermind Session where young business owners meet to support, develop and grow their business -
Typically held monthly

£200 Sponsor a Masterclass sessions where young business owners meet to learn new skills to grow their business - Typically held quarterly

It costs £500 to help each entrepreneur every year. This includes providing a trained mentor, and all of the services and support the KF Team provides. We currently support over 125 businesses, with a network of over 100 volunteer business mentors.

We expect this number of businesses to increase over the next 2 years to in excess of 250 per annum, and with the challenges we have all faced over the last 12 months, and the expected rise in unemployment, there will be many talented young people hoping to take some control back of their futures and start their own businesses.

What we are asking the Kent Business Community to do is come together and make business a great cause to support. The business community of Kent has an amazing record of working together for the good of the county, and supporting the next generation of business owners couldn't be more relevant now.
